Latur, Maharashtra, India

omkarmultiservices.v6.rocks

EDUCATION

B.C.A. (Computer Applications)
COCSIT College, Latur (SRTMUN)
Score: CGPA 9.26 (81.24%)

H.S.C. (Commerce)
Dayanand College of Commerce, Latur
Score: 60.77%

CORE SKILLS

Java & Spring Framework	Advanced
MySQL & JDBC Architecture	Proficient
HTML5, CSS3 & Bootstrap	Proficient
JavaScript (ES6+)	Intermediate
C & C++ Programming	Core OOP
Linux Servers & AWS Basics	Server Ops
Git & GitHub Workflow	Proficient

PERSONAL INFO

D.O.B:	11th December 2000
Languages:	English, Marathi, Hindi
Status:	Open to Work / Relocate
Hobbies:	Tech Trends, Coding, Gaming

OMKAR WAGHMARE

SOFTWARE DEVELOPER | JAVA FULL-STACK

EXECUTIVE SUMMARY

Analytical and results-oriented Software Developer with strong foundational expertise in Core Java, Spring Framework, Relational Databases (MySQL), and modern front-end technologies (HTML5, CSS3, Bootstrap 5). Proven record of independently engineering and deploying live production web applications on self-hosted Linux server infrastructure with custom domain routing and SSL security. Adept at full-stack integration, algorithmic problem-solving, and database schema optimization.

FEATURED PROJECTS & LIVE DEPLOYMENTS

Omkar Multiservices Web Platform — omkarmultiservices.v6.rocks
Full-Stack Application | Java, HTML5, CSS3, Bootstrap 5, Linux Server

- Architected and launched an enterprise multi-service web platform on a self-hosted Linux server.
- Engineered responsive, mobile-first frontend interfaces ensuring rapid load speeds and accessibility.
- Configured custom DNS records, automated SSL/TLS certificates, and hardened Linux firewall security.

Photo Studio Portfolio & Booking Web App — photo-studio.dynv6.net
Client Management Portal | Responsive Web Design, Dynamic DNS (DynV6), Linux Deployment

- Developed an interactive photo studio web application featuring service catalogs, galleries, and booking inquiry workflows.
- Managed live deployment on self-hosted infrastructure with DynV6 dynamic DNS routing and asset compression.

Enterprise Backend & Database Architecture — Core Development
Backend Systems | Core Java, Spring Framework, MySQL, JDBC

- Authored modular Java backend services utilizing Spring Framework, OOP paradigms, and robust JDBC connectivity.
- Constructed normalized MySQL relational schemas, optimized joins/queries, and maintained reliable data integrity.

TECHNICAL COMPETENCIES

Languages:	Java (OOP, Collections, Multithreading), C, C++, SQL, JavaScript (ES6+)
Backend & APIs:	Spring Boot, Spring Framework, JDBC, RESTful API Architecture
Frontend & UI:	HTML5, CSS3, Bootstrap 5, Responsive Design, DOM Manipulation
Database:	MySQL (Relational Schema Design, Query Optimization, Joins, Indexing)
Cloud / DevOps:	AWS Basics (EC2, S3), Self-Hosted Linux Server Administration, Git, GitHub
Tools & Other:	VS Code, Eclipse/IntelliJ, Postman, Tally ERP 9 with GST (Grade A)

CERTIFICATIONS & ACCOLADES

Top 10 AWS Services & Multi-Cloud DevOps Bootcamp — Certified
Cloud DevOps Hub | 55-Day Bootcamp (March 2026 | ID: HY5Q900T)

TCS iON Career Edge – Young Professional — Certified
Tata Consultancy Services | IT Foundations, AI Overview & Communication (ID: 5-6811547-1016)

C Programming with Practical Examples — Certified
Udemy Academy (Jan 2019 | ID: UC-WQM4KQ5K)

Tally ERP 9 + GST Accounting Certification (Grade A) — Grade A
Enterprise Accounting & GST Compliance Certification (2018)
